- > **Recommend optimal products:**
Evaluate all the customer's needs and the relevant attributes of the product to find the optimal solution.
- > **Provide sales arguments:**
Advise your client and build confidence in the products offered, turning potential customers into buyers.

What is and how can it help your company?

IntegralSoft Sales Configurator is a solution that allows you to create complete and automated commercial quotations with multiple possibilities and combinations. Once the order is placed, **IntegralSoft Sales Configurator** generates a complete bill of material that can be sent to Windchill PLM, the ERP, and other systems.

It is a tool designed especially for the commercial department. The sales team can prepare quotations autonomously and simply, without the support of the technical department.

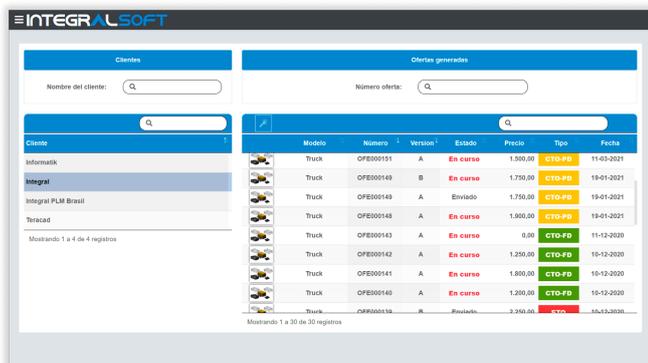

Automatically generate complete sales quotations

IntegralSoft Sales Configurator is a sales configurator that, on a first level, configures quotations of CTO and ETO types by selecting artifacts (components) that assembled will constitute a machine or part of it.

This configuration will automatically generate a complete and accurate documentation, which the commercial team will be able to deliver to the customer.

If the customer approves the quotation, the sales person will ask the system to prepare the contract to start with the manufacturing process. In addition, the complete list of materials and even the 3D manufacturing drawings and models will be generated automatically.

In the moment that a quotation is generated, it has its versions, revisions, its cycle of approval and all this is recorded, so that the commercial department can then analyze how their quotations are in a very simple and visual way. Eventually, with **IntegralSoft Sales Configurator** you get the quotation that best suits your customers' needs.

Capture the know-how of your best product experts

IntegralSoft Sales Configurator's powerful commercial configuration engine captures the knowledge of your best product specialists and makes it available to your entire sales team.

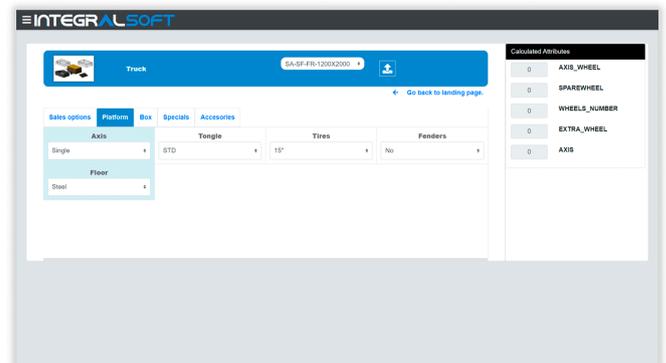

Even newly contracted commercials, distributors and partners can quickly offer the best solution without the help of experts in the field.

Save time, resources and money with the new commercial configurator developed by Integral Software Factory.

A faster quote process

In **IntegralSoft Sales Configurator**, the detailed quotes with the supporting documentation are generated automatically. This accelerates the quotation process drastically and eliminates errors.

Get more information on how to generate sales budgets more quickly, without having to depend on the technical department.
